ABOUT ME

AI/ML enthusiast with hands-on experience in computer vision, NLP, and research. Proven through 3 internships (SRM Research, Aenexz, Netkathir) and real-world projects including YOLOv8- based plastic detection and transformer-based text summarization. Seeking ML/AI internship opportunities to build intelligent systems that solve real problems.

INTERNSHIP

Research Intern Apr 2026 – Present
SRM IST

AI/ML Intern 3 Month
Aenexz

Built data preprocessing pipelines and trained classification models for business intelligence.

AI Engineer Intern 1 Month
Netkathir Technologies Pvt. Ltd

Built YOLO-based real-time crowd counting system (sub-100ms inference). Handled full ML pipeline—training, preprocessing, evaluation. Created Flutter mobile prototype for occupancy dashboards. Translated vision outputs into operational crowd metrics.
